NFT GAME PLAY TO EARN ON THE BSC

INTRODUCTION

CryptoCar a revolutionary a web based NFT game play to earn launched on the Binance Smart Chain and brought to existence by the talented group of Racing Games. The core of the game revolves around rewarding players with \$CAR tokens after winning the boss and entering the tournament. They can also farm their CAR earnings and receive additional CAR as a reward.

PURPOSE OF THIS PAGE

The intention of this paper is not to be a deep technical dive, but rather an overview of the existing gameplay and a vision of the future CryptoCar. This includes gameplay details, information on NFTs, the games economy, specifically tokenomics, and how the Binance Smart Chain can enhance and provide a rewarding experience to the end user. This is a living document and the team holds all rights to make adjustment as seen fit.

MINT TO PLAY

CryptoCar a web-based game application. The user will need to have access to the internet to play the game. All gameplay happens on <https://cryptocar.cc/game/>

CryptoCar's contracts are deployed on the Binance Smart Chain. The player will need to have a nominal amount of BNB cryptocurrency to pay for transactional gas fees. They will need to have a wallet (i.e. Metamask, Trust) which can store the BNB cryptocurrency and which can also store the CAR token. The player will need to setup their Metamask wallet to the Binance Smart Chain network. They will need to secure, at a minimum, 100\$ = CAR token to start the game. The CAR token can be swapped on Pancakeswap, pairing with BNB.

CryptoCar's NFT Market first and foremost a blockchain game – which means that the players own their minted NFTs (Cars and Accessories). The right to sell and trade is wholly owned by the player. CryptoCar implemented a market to make this process trustless. The player can search Cars and Accessories that have been listed by other players, as well as list their own Cars and Accessories. There is a small buyer fee added to each transaction. CryptoCar's NFT Market is an open platform, users can buy and sell other NFT products.

FARM

CryptoCar's Farm is new platform. You can Farm \$CAR earn \$CAR, Farm \$CAR earn other Tokens, Farm \$CAR earn NFT, Farm NFT earn \$CAR.

TOKENOMICS

CAR serves as the native game currency for CryptoCar. Players leverage CAR to mint Cars, Accessories and to buy/sell on the NFT Marketplace.

The max supply of \$CAR (1.000.000) is designated as follows:

- Smartcontract: **0xb1beea51ddbc7e99d02b5630e24fd376ee4f9b46**
- Airdrop – 10%
- Presale – 10%
- IDO – 10%
- Gameplay Incentives – 30%
- Farm – 20%
- Marketing – 10%
- Development – 10%

Note: Total BNB Presale + IDO will locked LP at Pancakeswap 1 year, 10% Dev Fund was locked at Unicrypt 1 year.
